Dear Ruth Williams, Committee Members and Attendees of AvCon 2004,

Thank you very much for your generous fundraiser benefiting the American Cancer Society. Your gift will help us in our mission to eliminate cancer as a major health threat through research, preventative education, advocacy, and service to cancer patients and their families.

As the largest private source of cancer research funds in the United States, the American Cancer Society needs your continuing support to help researchers make advancements in the battle against cancer. Please feel reassured that this research is making dramatic results. History was made in 1996 when we announced a first-ever sustained decline in cancer deaths. The overall survival rate for all cancers is 56%, but when detected early, many cancers are nearly 100% curable.

We genuinely appreciate your support and look forward to your continued friendship.

Sincerely,

Jenny Labadie  
Project Coordinator  
American Cancer Society
